

National Volunteer Appreciation Week 2018

“Celebrating the value of volunteering”

National Volunteer Week from April 15th to 21st is a time to celebrate volunteers. This year’s theme focuses on the value of volunteering.

The magic of volunteering is that it creates value for all, from individuals and families to CARD and the community.

Volunteers themselves benefit from giving their time, by developing new skills, building connections, advocating for causes they care about and learning from others. Many volunteers will tell you that they get more than they give – and they give a lot.

Volunteer involvement is vital for a successful program.

Celebrate National Volunteer Week by thanking a CARD volunteer.
