

HORSE SPONSORSHIP 2024

CARD

The Community Association for Riders with Disabilities (CARD) is a non-profit charity and Canada's first and oldest therapeutic riding centre, providing therapeutic riding programs in the Greater Toronto Area. CARD works with certified instructors, equine trainers, 11 amazing therapy horses and over 100 volunteers to help the estimated 300 children and adults with disabilities each year, gain greater physical, cognitive, and social skills.

Our Mission

To provide high quality equine therapy to children and adults in a safe, inclusive and welcoming environment.

Our Vision

An engaged community in which individuals, not labels, dictate who they are and what they can achieve.

CARD's Programs

Therapeutic riding is a medically recognized form of physical therapy, proven to benefit children, youth and adults with cognitive, physical and/or emotional disabilities. The therapeutic benefits of riding come from the swinging, repetitive motion of the horses' gait. This movement helps to improve the rider's balance, coordination, strength, and muscle tone, while gently mobilizing the joints. As the horse moves, the motion imparted to the rider is similar to the walking pattern of a human's gait.

CARD's therapeutic riding program consist of up to 25 weekly classes categorized by age group, skill level and special needs of the riders. Certified equine instructors lead each class with the aid of up to 12 volunteer horse-leaders and side-walkers. Programming needs are discussed with each rider during an initial assessment and are reviewed annually by the therapeutic instructors based on the progress made throughout the year.

CARD's Riders

CARD offers programs for riders who have varied diagnoses, including but not limited to cerebral palsy, muscular dystrophy, multiple sclerosis, Down syndrome, autism spectrum disorder, developmental delay, head injury, and sensory impairments. CARD's programs help our riders live independent lives by improving coordination, muscle strength, balance, communication and motor-skills, and by helping to develop greater confidence and self-esteem. Through a consistent assessment process, and group lessons, CARD riders continue to embrace new life skills, overcome personal obstacles, and rise to the challenge of improving the quality of their lives.

CARD's Therapy Horses

At the heart of CARD is its herd of 11 amazing therapy horses! Our remarkable horses are generously donated or purchased by donors and are adored by riders, staff and volunteers alike. They are incredible, compassionate and caring animals, special and unique in their patience, adaptability and generosity of spirit. The therapy each horse provides is life changing. Their character helps build trust with our riders and creates a bond that is both healing and inspiring.

HORSE SPONSORSHIP OPPORTUNITIES
